

\*\*\*\*\* **BREAKING NEWS** \*\*\*\*\* My new Baby ' All cracked up ' booklet 1 is here, the first book in the Master class series of 4 booklets – only 3 more to do - very excited . We still have to register it with Nielsen, the book people and they put it on the UK and international book list. We then have to send one to the British Library and the Bodleian Library and they hold all books printed with an ISBN number for 300 + years ! - cool eh!

So when I am dead and gone, my books will still be sitting on dusty shelves in these libraries unless we all get completely obliterated by a nuclear war – including the libraries - well let's not dwell on that !

**Other news** - I have also started a new blog entitled 'What the Artist saw ' I have decided to concentrate on technique so, for each blog, I will be taking a different technique and image from my collection and revealing how I created it, the first is 'Shadow of fire ' - go to : [kmajorgeorge.blogspot.co.uk](http://kmajorgeorge.blogspot.co.uk) and I would love you to share this with other people who may find this information of interest - I will let you know when the next one is posted.

Just £10 - Full colour printing technical book on the amazing technique of cracking. Available from my website [www.majorgeorge.co.uk](http://www.majorgeorge.co.uk)
