

Had a busy few weeks in my studio with new 'Sphere's of Hope' range, which is nearly finished - very pleased with results, some beautiful effects created by crackle on gold etc. sample below - some more are on my Facebook page via Chloe - she is doing a great job at promoting me - making me sound very interesting - I do not recognise me!

Had a lovely day at Obsidian Gallery in the 'Meet the Artists' event connected to the BBH Print Society exhibition, lots of people came and sales were made.

Delivering the 'Organism' London art work this weekend - really looking forward to the private view.

These are big affairs, so I have been told and many of the London set turn out to see what Espacio is putting on now. Only on for two weeks and connected to London Chelsea flower show and other London events. Many top London design centres and galleries put on events over the Chelsea Flower show week - Design centre, Chelsea harbour etc. I guess London is full of extra people - so should be a good crowd there.

**Private View - no ticket needed**

### Summer Collagraph Workshop in artists studio in Lilley Herts 2016

I still have places on my  
 Collagraph workshop in my studio.  
 I will be explaining some of my new  
 techniques on this summer  
 workshops. These will be featured  
 in my book that, hopefully will be  
 out at the end of the year, but  
 nothing like seeing up close how  
 they are created.

So why not come and experience  
 the exciting atmosphere of a small  
 group learning how to do  
 collagraph printing .

..... no experience needed .....
