

I thought I would send another newsletter to let you know the 'Art for interiors' exhibition was hung yesterday and looks splendid.

It took a lot of effort to get them up the stairs but there was a good team of helpers drawn from the New Maynard Gallery Trustees

So we left 23 hand pulled prints - 8 very big ones - these rarely come out, for the team to hang- all has gone well and great care was taken by all.

Had an extremely busy Summer having picked up 4 more commissions from one client so I am working extremely hard to get them done by Christmas.

They also want a huge one in the New Year for their stair drop – so got my work cut out there, not only working on the images (space wise) which will be on canvases (probably constructed in two parts to be hung connected with a arty gap) and also transportation etc – but all very exciting.

I am sorry to say I will not be doing workshops in the Autumn- as not enough hours in the day, but I am planning on doing two collagraph workshops in the New Year before we go away for a winter break.

Newsletter ... Kim Major-George ...Late summer 2015

If you wish to come along to the preview - you are very welcome

Over 10 years working with bespoke palettes for interior designers

What people have said about this mini tour already

..."Rarely do you see two artists coming together to create such beautiful work, long may this relationship continue - taking art to another level."

..... Danielle Henderson.....

"This multiple sensory exhibition was a joy- combining stunning hand pulled prints and original contemporary poetry making for a wonderful emotional experience. "

.....Sophia Lockhart.....
