

I have been extremely busy, working in my new studio, and have finished a new image, part of the 'Time slip collection'. More are to follow - just need to get them photographed and put onto my website, some unusual effects and mounting techniques you may be interested in.  
I am heavily involved with the two exhibition listed below. It would be great to see you at any of these events, my new work will be featured in my next two exhibitions, details below.

I have also been very active in designing three very large beautiful carved screens. These were transferred to a laser cutting company and meticulously cut out in steel (pictures in my next newsletter) So, watch this space - I may go into laser cutting screens as a separate side line, you never know.

## News from Caraway Studio..... Kim Major-George Summer 2019
